EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Curtis A. Vock, Reg. No. 38,356 on December 14, 2001.

The application has been amended as follows: Claims ~~70-72~~, and ~~74-77~~ have been canceled.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The invention is directed to a method of locating item of interest (e.g., a point of interest in a map database) at a local (preferably mobile or portable computer or PDA etc.) computer with a port wherein in the item and its spatial details are downloaded from a remote database.

The prior art of record, as discussed at length in the interview dated October 17, 2001, teaches the retrieval of spatial item of interest, however, does not teach the fetching of the item from a remote database as claimed.

Claim 38, the only pending independent claim, recites "a port" that is located at a "second location" and a "database" of spatial information of interest that is "not located at the second location." The claim is allowed as being unique combination of elements

Art Unit: 2172

as recited. The notable distinction over the prior art of record is that the database that is providing the spatial details for the item of interest is not located at the second location where the retrieving port is located. The examiner believes this particular feature meets the suggestion provided in the October 17, 2001 interview with the Applicants and his representative. The Applicant have also indicated that none of the references in the Information Disclosure Statement, filed on February 8, 2001, teach the fetching of spatial data from a remote database as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Comments regarding Appendix A:

The reference to the Appendix A on page 23 of the disclosure has been deleted. The 23-page Appendix A has been placed in the file, however, it will not be printed. It is further noted that a microfiche appendix for Appendix A can be found in the U. S. Patent 5,682,525 file, which is also the parent file of this application.
